## "Let Us Not Become Weary"

As Paul is concluding his words to the churches in Galatia he writes, "Let us not become weary in doing good." It seems like a "no-brainer". Surely no one could ever become weary or tired or discouraged when doing good. Yet, our own human experience tells us otherwise. "Weariness" is a powerful weapon of Satan. He may not be able to convince us to do "bad": to openly defy God and jump into a life of sin. However he can do something just as destructive. He can wear us down. He can tire us out. He can discourage us. And if we allow him to do so, he has won. It may not be all about the "bad" things we did, but more about all the good things we could have done, but didn't.

There are many reason we may become weary. It could be that we don't see immediate or measurable results from our efforts. We are results oriented. We like to see a job completed. A finished product. We want to reap the harvest we have planted. However, much of what we do for the Lord and to His glory cannot be measured this way. How do you measure the results of kindness, goodness and gentleness? How do you measure the seed of faith that was planted and only springs to life much later, perhaps even after we are gone? Paul talks about reaping the harvest, but I think he is reminding us that the ultimate harvest is yet to come.

We might also become weary when we are disillusioned by the inactivity of others. It is too easy to look around and compare "all" that we are doing to how seemingly "little" others are doing. We must be careful not to fall into this trap. First, what others do or don't do never excuses us from doing what we can. Peter once questioned Jesus about John. Jesus essentially told him to take care of his own business and not worry about John. Secondly, others may be doing more than we think. Elijah thought he was the only faithful one left in Israel, but God informed him that there were many others Elijah did not know about. Just because others are not doing "our" thing, doesn't mean they aren't serving in other areas.

Certainly we can become weary because of the discouragement of others. It has been my experience that someone will be negative and discouraging, no matter how good a thing can be. First of all we must rise above discouragement and remember that what is at stake is too important. Secondly, we need to be encouraging to others and never be the cause of someone else's weariness.

No, we will not become weary in doing good!
